Fresh Fruit & Vegetables

Pick D & D picking for your fruit and vegetable needs! We get scratched/sweaty/stung so you don't have to!

Strawberries are already over for this year—the weather was too warm too early for good fruit set, and then too wet for good flavor.

Beginning Tuesday, we can pick beets, spinach, and chard. Tart (pie) cherries and sweet cherries should be ready within several days. Blueberries will be in for a month or so. Black raspberries are ready and will be available for 2-3 weeks, early red raspberries ready soon.

Peaches and sweet corn won't be ready until mid-July, but we will be able to get summer squash soon.

All grown with compost and integrated pest management including recorded hawk calls near the berry bushes.
