Snow Removal Information

The Town of Brookeville contracts with a snow plowing service for North, South, Water Streets, the paved section of Church Street, and the eastern portion of Market Street.

The Maryland State Highway Administration plows High Street and the western section of Market Street (MD Route 97).

During a snowstorm, no plowing begins until an accumulation of 4 inches of snow has fallen on the streets

Residents and businesses are responsible for clearing their sidewalks, driveways, and entrances within 24 hours of the end of a snowstorm.

All residents are strongly encouraged to be good neighbors by clearing the sidewalks in front of their homes, as well as assisting those who may not be physically able to do so.

The objective of snow removal is to make residential streets passable. To accomplish this goal, please move your parked cars into your driveway or off the road before a snow event. Crews can do a much better job clearing your street of snow without maneuvering around parked vehicles.

Do you need a Permit?

Owning a property within a Historic District, most exterior work will require permits from Montgomery County's Historic Preservation Commission (HPC) and the Town of Brookeville.

Work requiring permits includes but is not limited to the following:

- New Construction, including garages and sheds
- Additions
- Grading and removing live trees greater than six inches in diameter
- Removing or enclosing porches
- Installing siding,
- shingle or masonry facing or other
- changes to exterior materials
- Replacing a window sash with a new sash
- Permanently removing shutters
- Adding, removing or changing architectural features, including the size, shape, and placement of windows
- Painting or removing paint from masonry
