Brookeville Times

ByPass Update
The SHA reports the following:

The Brookeville ByPass is currently 37% complete and is scheduled to be fully complete by summer 2021.

Recently completed work:
- Footing Concrete S1 Bridge abutment B

Current work items/areas:
- Rebar for S1 Bridge Abutment B Substructure

Upcoming work items/areas over the next month:
- S1 Bridge Structure Abutment A
- High Street water line

For more information about this project, please contact Mr. Javier Arias, SHA Project Engineer at JArias@mdot.maryland.gov , or Mr. Ryan Doran, SHA District 3 Area Engineer at RDoran@mdot.maryland.gov.

MDOT SHA regularly updates the status of the Brookeville ByPass on its website: https://mdot-sha-md97-brookeville-bypass-mo7465171-r-maryland.hub.arcgis.com/

Commissioners Meeting
Monday, September 14, 2020
7:00pm

Town Commissioners Meeting on Summer Break

The Town Commissioners will not hold an August meeting. The Commissioner will resume meeting on the 2nd Monday of the month, starting with September 14, 2020.

All Town meetings are being held via Zoom. If you would like to attend a public meeting, please send an email to clerk@townofbrookevillemd.org for login credentials.

The Annual Town Picnic has been postponed. Plans for a socially distance event will be discussed for the Fall. If you have any thoughts or suggestions, please reach out to the Town Commissioners.

New Roof for the Academy

The Town has submitted an application for the change of roofing material for the Brookeville Academy to the Brookeville Planning Commission (BPC). The application will be reviewed at the August 4, 2020 BPC meeting. The Town permit will be the last step in the permitting process before work can begin.

The Town of Brookeville was awarded a grant of up to $35,000 from the MHAA grant program to replace the roof on the Brookeville Academy. The grant will require a 50% match from the Town, with funds being drawn from the Reserve Fund. The roof will be replaced with a metal standing seam roof estimated to cost between $70K - $80K.

COVID-19 Update

Town Staff continues to work from home to provide continuity of governance. The Town Commissioners continue to monitor information from our State and County Leaders.

The Brookeville Academy is currently closed to the rentals. Brooke Curley, Events Manager, is working on a COVID-19 rental waiver for individuals or community groups that voluntarily reserved the Brookeville Academy for private use

All meetings are being held via Zoom. If you would like to attend a public meeting, please send an email to clerk@townofbrookevillemd.org for login credentials.

News from Pepco: Go Virtual with Home Energy Check-ups
Customers can work with an energy efficiency expert over the phone or by video chat to make easy changes that help reduce energy use and costs

Pepco has gone virtual with its Quick Home Energy Check-up program to help customers save energy and money. The new, no-cost Virtual Home Energy Check-up is available for all Pepco Maryland customers, and builds on Pepco's Quick Home Energy Check-up program, which offers traditional, in-home consultations with an Energy Analyst. Due to the pandemic, Pepco suspended the in-home version of this program until further notice.

Interested customers should schedule an appointment online by visiting pepco.com/QuickHome. Once scheduled, an Energy Analyst will send a short checklist of things to look for around the home in advance to ensure the virtual check-up is as productive as possible at the time it occurs. The checklist helps customers prepare for their appointments by asking basic questions, such as what type of thermostats and lightbulbs are present in the home.

During the virtual appointment, customers will:
- Answer questions about their home and describe any comfort issues they may have, such as rooms that are too hot or cold.
- Look at specific items that impact energy use, like the thermostat, lighting, water heater and more.
- Make easy changes with the Energy Analyst's help.

Pepco is proud to offer the Virtual Home Energy Check-up as an innovative way to help customers save money. To learn more about this and other programs that can help save money and energy, visit pepco.com/save.
