New Resolutions

- **Resolution 24-01:** A Resolution to adopt a Policy of using one hundred percent (100%) clean, renewable electricity for all .municipal facilities and operations for the Town of Brookeville
- **Resolution 24-02:** A Resolution to adopt a Policy for the Reduction of Electricity Consumption Reduce by fifteen percent (15%) by 2029 at all Town-owned facilities and operations, relative to baseline levels.

The Town Commissioners adopted two Resolutions at the May 13, 2024 Commissioner's Meeting. The Town has applied for a Maryland Clean Energy for Local Governments (CELG) grant to swap out cast-iron light pole fixtures. Currently, the bulbs are high-pressure sodium, and the Town will replace the light fixtures with an energy-efficient 50-watt LED System. The Resolutions are one step in the approval process for the grant.

The Town already contracts with Clean Choice Energy for 100% wind and solar electricity for the Brookeville Academy, Schoolhouse, and street lighting.

Also, please:

- No Parking opposite to the flow of traffic (left wheels to the curb)
